

LUCAS ROSAT

Data Engineering Analyst | AI Automation Engineer | SQL Developer

● Bahía Blanca, Argentina | [Mobile +54 9 2920 475794](tel:+5492920475794) | [@ rosatlucas@gmail.com](mailto:rosatlucas@gmail.com) | [in linkedin.com/in/rosat-lucas](https://www.linkedin.com/in/rosat-lucas)

Data Engineering Analyst with 6+ years of professional experience delivering data, reporting and automation solutions in enterprise environments. Combines strong systems analysis, programming and algorithmic foundations with hands-on AI automation experience to turn business requirements into reliable and scalable technical solutions.

EX PROFESSIONAL EXPERIENCE

ACCENTURE - Data Engineering Analyst Dec 2022 - Present

- Design and maintain complex data-processing and reporting logic, including stored procedures, validations, ETL workflows and business rules.
- Design AI agents that support technical analysis, troubleshooting, requirements understanding, process documentation and engineering workflows.
- Apply AI-assisted development to reduce repetitive work, accelerate debugging and code analysis, and support implementation workflows.
- Build and support automated data integrations and scheduled processes across enterprise systems.
- Build and maintain reporting solutions focused on data accuracy, usability and alignment with business requirements.
- Collaborate with functional, development and testing teams to define technical solutions, establish acceptance criteria, validate end-to-end behavior and resolve complex data issues.
